VOLUME 24, No. 4.

NEWS NOTES

A murder and suicide at Wildwood near Edmonton, last Sunday, took the lives of Miss Nylea Brutka, 16 years, and Steve Pakas. The girl shot her stepbrother four times and Pakas, her assailant, threw himself under the wheels of a passenger train and was killed instantly.

Forest fires in the Cypress Hills, eastern Alberta, were under control early this week. Fires near Nelson, B.C., have also been checked.

Hail last Saturday did \$100 per cent crop damage to 3,000 acres of crop in Bow Island district. It is thought to be the same storm that struck Bassano.

A life saving medal from the French government was modestly refused by the Prince of Wales. The prince saved a youth from drowning at Blarritz, France, last week.

Peregrine George Fulton Hunter, 67 year old farmer living eight miles west of Queenstown, died Sunday from concussion. He was hurried to the ground from a 30 foot windmill tower last week.

Outlay for drought relief in the United States is expected to exceed \$25,000,000.

A five year sentence was meted out to the Ekkons at Copeland—charge, ed with mail robbery. The principal party travelled into the Arctic interior by airplane to hold court, and they returned by the same means.

One of the oldest motorists drives one of the oldest cars. He is Miles Tinley, of Ashtabula, Ohio, 92 years. He has had the car for 22 years and drove it regularly until he was 88. The car is said to be still in good condition.

Three persons escaped serious injury when their car crashed into a passenger train near Sylvan Lake during the morning of Aug. 12 afternoon. Mr. and Mrs. Wm. Sheppard and their four-year-old daughter were hardly scratched by their car was demolished.

B.C. Apple Growers are forming a plan to protect the sale of apples. The proposed scheme is aimed to prevent the sale of surplus numbers of the plan ahead of the belief that the plan will unduly raise the price of B.C. apples on the market.

Many settlers in the drouth areas of southern Saskatchewan are not waiting for government assistance to move to new locations. To date only about 100 have accepted government aid, while thousands of others have packed what they could in wagons and started on the long trek north and northwest.

On a secret trip to the mining region of Great Bear Lake, the Canadian north, an airplane left Edmonton 1st Monday headed with a party of mining men. It is rumored the Major L. T. Burwash, noted explorer, had made a sensational discovery of quantities of gold in the north.

On the late Marie Dresser's \$200 fortune a large share was left to the screen star's maid, Marie Cox.

DUCHESS NEWS

DUCHESS August 15.—The Duchess sports was well attended and very interesting on Saturday.

Mr. Lynn and Gordon have returned from their holiday spent in Cranbrook, Spokane, Portland and Seattle.

G. Burke and family, who have been bandaging at Radium Springs, are back again.

The Ladies' Aid are putting on a garden party at the home of Mrs. Grusfeld on Aug. 22. Tea and a supper will be served from 4 o'clock on.

Next Sunday is "Flower" Sunday at the United Church. There will be special music.

Mrs. Marjorie Galan is spending a holiday at Westose and Pigeon Lake.

There will be the usual Saturday night dance on the 13th, at 9 p.m.

Duchess ball team will play Rainier next Sunday at Duchess.

AGRICULTURAL SCHOOL TO REOPEN

An announcement is made by Hon. F. S. Grindal, minister of agriculture, that the school of agriculture at Vermilion will be re-opened this fall, provided the registration of students is sufficient to warrant it. The school at Oils will continue to operate.

Drumheller Cleans Up In Tennis

Visitors Outclass Local Players to Win All Matches

Displaying a superior court's strategy and skill with the racket, ten tennis stars from the south won the 28th annual clean sweep of the singles and doubles matches in a friendly tournament with the Bassano tennis club on the local courts Sunday afternoon.

F. Starchuk and Mr. Green were the outstanding performers in the competition, which was a good exhibition in their singles matches, and they teamed up strongly in the one doubles match they played.

C. Neubolt gave Starchuk a good argument in the first set, but the slender set L. Whitehead won the second set. L. Whitehead was at watch point in the third set but his long drive fell behind the baseline. Playing a steady, hard driving game, he won the next two games and the match.

Following are the results of the games:

Men's Singles

Starchuk defeated C. Neubolt 7—5, 6—3; Gillinder defeated McLean 6—3, 6—3; Starchuk defeated A. Johnston 6—3, 6—3; Swan defeated Whitehead 6—1, 4—6, 7—5.

Men's Doubles

Starchuk and McLean defeated Hennibit and McLaws 6—1, 6—2; Hennibit and J. Smith 6—3, 6—3; McLean and McCullough defeated McLean and A. Ford 7—5, 6—2; Hennibit and Whitehead 6—1, 6—3; Swan defeated A. Johnston 6—5, 6—2.

Women's Doubles

Starchuk and Swan defeated Hennibit and McLaws 6—1, 6—2; Hennibit and J. Smith 6—3, 6—3; McLean and McCullough defeated McLean and A. Ford 7—5, 6—2; Hennibit and Whitehead 6—1, 6—3; Swan defeated A. Johnston 6—5, 6—2.

The Banffshire club had planned to bring nine men and a number of ladies, but three of the men were unable to come and the ladies also dropped out.

The contests were Sunday morning, a half hour before the rain started, the wet sets with 10 points, and giving the courts a good rolling a half hour after the weather had passed.

When rain was called at 5:30 p.m. it was planned to return to the courts for a few more matches, but rain stopped play shortly after the games got under way.

THE WHEAT BIN

Relationship of Wheat Prices Commanding on the highest rates of Canadian wheat prices as compared with wheat prices in Australia and the Argentine, the Monthly Review of the Wheat Situation, issued from the Department of Trade and Commerce, pointed out recently that there are numerous factors bearing on the higher quotations for Canadian wheat some of the basic reasons are the abundance of soft, low quality wheat in the United Kingdom, the high cost of shipping wheat to Europe and the preference of Canadian wheat while durums are high and restrictions are so close.

The article notes that the major spreads between Canadian wheat and the Argentine, the monthly review to appear in January, 1933, after a period of 6 months, and the three prices moved closely together. Canadian wheat prices stayed closest under Canadian influence, while the Argentine prices moved most rapidly.

The relationship of Argentina wheat did not follow the rise in the Canadian prices which took place in the first month of 1934. A spread of 2¢ to 3¢ in the middle of November had widened to 14¢ at the end of December.

Argentina prices moved closely with world wheat prices in April and May during the period of rising prices. On July 11th it amounted to 131 cents per bushel, or 28 cents above the 1933 crop.

Argentina prices were affected by its relationship to Australia in that Canadian wheat prices dying the 1933-34 crop year. During the period of heavy Argentine selling in the first few months of 1934, a spread of 2¢ to 3¢ in the middle of November had widened to 14¢ at the end of December.

Argentina prices reached 131 cents per bushel in December, and since then have narrowed very little since.

The disparity between Argentine wheat prices and those of other sorts is the widest in many sections of the Ukraine reached 30 per cent or more, and in some Ukrainian state farms exceeded 50 per cent of the crop.

Sys United, 1933-34 Will Import Argentine Wheat

Col. G. G. Porter, a veteran Western Canadian newspaper man, reports in one of his press dispatches recently that Bruce McLean, old time Winnipeg grain trader, is of the opinion that the world wheat market very recently not so sensitive to bullion enthusiasm.

Wheating more than 60 pounds is the bushel and grading No. 1 Northern, the first load of wheat from the farm of D. T. Teigland at Bassano, was delivered to the Atlantic Wheat Pool elevator, Bassano this afternoon. Mr. Teigland cut his crop with a binder and today he started threshing. His grain is of a quality superior to most of the other local crops.

Frightened Calf Causes Death Mrs. John Rutschke

No. 1 WHEAT

Dept. of Agriculture Reviews Crop Situation in Ninth Report—Good Crop in Widely Scattered Areas

Harvesting of 1934 wheat is now well under way in Southern Alberta, and has commenced in a few localities in Central Alberta. In the north the first load of wheat has been received, but there is prospect now for warmer weather, which should offset the anxiety still felt concerning the danger of frost in some of the northern districts where the grain is still fairly green.

Over a considerable section of the province, grain crops have suffered some further deterioration in the past fortnight due to the continuing rains. In the central and southern districts, however, the weather has been warm enough to bring the grain to maturity, and enable harvesting to be completed to escape the severity of autumn frost.

The harvest season is not yet over, and some further deterioration may be due to a definite estimate of grain yields to be made. The hope of a heavy yield of wheat must, of course, be abandoned, but with some of the grain having been harvested, there is no prospect of fair yields and the northern and southern areas anticipating quite heavy crops, there can be fairly certain expectation of a total yield of grain crops of 100 million bushels, or somewhat more, in the southern and southeastern districts, chiefly in the Lethbridge and Lacombe areas.

In the central and northern districts, however, the weather has been warm enough to bring the grain to maturity, and enable harvesting to be completed to escape the severity of autumn frost.

The harvest season is not yet over, and some further deterioration may be due to a definite estimate of grain yields to be made. **UNITED STATES MARKET
FOR ALBERTA COAL**

The recent action of the U. S. government in deciding to admit Canadian coal without duty will, it is believed, bring new business to Alberta coal mines, for both domestic and export coal. The Alberta government trade commissioners recently been advised of the new arrangement.

BONUS FOR SUGAR BEETS
Farmers growing sugar beets under contract with the Canadian sugar factory may qualify for a bonus on their 1933 crop which brings the total price per ton paid them to \$6.65, compared with the price of \$5.83 received for the 1932 crop. A further bonus is possible later in the fall.

**INDUSTRY IN THE
IRRIGATION PROJECT**

Few thinking farmers on the C.P.R. line are likely to believe in the old belief that wheat should be their main crop. When the golden grain sold for \$2 to \$3 a bushel wheat raising on irrigated land was a money-making proposition. During the last few years the disastrously low prices have made wheat growing unprofitable, and progressive farmer have been turning to other products.

The success of the lamb feeding scheme makes this an important outlet, while many irrigation farmers and the growth has been introduced this year, is expected to yield a fair profit to the grower.

It is in such lines of specialization that the salvation of the irrigation farmer lies, and unless wheat takes on an unexpected upturn in price the irrigation farmer must concentrate on the production of special lines of produce.

Following many rumors that a canning factory was to be built near the irrigation project, it is now reported from an authoritative source that a canning factory will be built and operated. This will provide farmers with another outlet for the special lines of produce which can be grown on irrigated land.

WHEAT

(continued from Page One) union that United States will import at least 160,000,000 bushels of wheat during the next twelve months. Mr. McLean has said that farmers should not rush their wheat to market this fall but should sell only for their immediate requirements and hold the balance on the farm. He believes wheat will be in short supply in Alberta in 1935. Mr. McLean has recently covered Western Canada in a three week's tour and thinks the total wheat crop will be less than 260,000,000 bushels.

Mr. McLean has also said that United States will have to import 100,000,000 bushels of Canadian wheat within the next twelve months if the country's carryover from the 1933 crop was around 260,000,000 bushels and crop this year around 260,000,000 bushels, leaving a total supply of 760,000,000 bushels.

This suggests that the States will have sufficient wheat and a carryover on July 1, 1935, of probably 160,000,000 bushels.

The chief element of uncertainty is the exact volume of wheat stored on United States farms which cannot be definitely placed. There is another factor, and that is the condition of this wheat crop, which may be a more important news item and not to encourage any person to accept the views expressed by Mr. McLean.

The Weather in Kansas

A heavy snowfall recently caused the following little note on the weather in that state. "With grasshoppers four deep on the level in eastern Colorado, the western Kansas jackrabbits blocking the highway, temperatures in the shade and shower of shade from every thunderhead that comes regularly at sundown, there really isn't much to say about the weather."

Notes of General Interest

In Saskatchewan during the present crop season has damaged grain crops to the value of \$4,500,000. Of this loss probably not more than a million was protected by insurance.

The average cost of summer-cultivation on eight Dominion Experimental Farms in the prairie provinces for the years 1923 to 1930, inclusive, has been \$8.56 per acre.

With a wheat yield in South Dakota this year is estimated at 4 bushels to the acre. The United States government has sent 264 million dollars into that state for drought relief since September 1932.

It is quite obvious that the estimate of Western Canada's 1933 wheat crop fixed by the Dominion Bureau of Statistics at 250,000,000

bushels per acre is too high.

New MOUNTAIN HIGHWAY

Announcement of the intention of the Dominion government to proceed with the completion of the mountain highway connecting Banff and Jasper national parks to the Alberta Rockies is received with Alberta people with considerable pleasure. With the announcement comes the statement that labor will be recruited from unemployed men at regular rates of wages which it is believed will assist in relieving the unemployment situation. The new highway, which may be completed within three years, will be one of the finest roads in the world. Some 150 miles have already been completed on the Banff end, and 17 miles on the Jasper end.

bushels was too low. Two months ago there should have been only 140,000,000 bushels of wheat in farm granaries but 3 million bushels of wheat have been delivered in the past month.

Harvesting in Europe is nearing completion and in some instances the yields are better than expected. This is particularly of Romania and France.

Wheat growers in England to the number of 84,000 received payments from the British government for the amount of £42,000,000 for wheat produced in 1933. This payment was made in order to bring the price up to the guaranteed minimum fixed by the government.

JOHNSTON

"The Quality Store"

THE PICTURES

The late Mario Deodato will live on the screen at the Orpheum Theatre Friday and Saturday of this week in "Dinner at Eight." Herald-ed as the greatest entertainment ever offered by screen and stage, "Dinner at Eight" features some well known screen stars in addition to the immortal Dressler. They include John Barrymore, Wallace Beery, Jean Harlow, Lionel Barrymore, Lee Tracy, Edmund Lowe, Billie Burke, and others.

"Yes, Mr. Bowditch," British production, is billed for Friday and Saturday of next week.

TECHNICAL SCHOOL HAS

ANNUAL SUMMER SESSION. The provincial technical school at Calgary has enjoyed a successful season, a total of 731 students being registered the past term. In addition, 47 unemployed attended 23 classes given at night. The school is run by 36 instructors acting without salary. The school is now conducting a course in aerodynamics, the only one of its kind given in Canada. It is planned during the coming term to design and build a complete airplane.

U.S. AIR MAIL DELIVERIES INCREASE

Delivery of letters to the citizens of the prairie continues to show a substantial increase over last year. Nearly 14 million pounds of butter have been received up to the end of July, compared with 12,500,000 for the same period last year.

OBITUARY

MOSHEIM, ABERLING, WURSTER. Mosheim, Aberling Wurster, of Lethbridge, died at the Bassano Hospital Friday, Aug. 10, at the age of 63 years. Death was caused by cancer of the throat.

Mr. Wurster came to Lethbridge in 1920, and since then has been operating a hardware business there.

The last seven or eight years he has been farming at Lethbridge. Funeral services were held at Knox Presbyterian Church Saturday, Aug. 11, with Rev. John Hart in charge. Burial was made in the city cemetery.

Surviving the deceased are his wife, two sons, Lafece and Stuart, two daughters: Mrs. E. Dowans; Mrs. J. Foyey; Rosemary; Mildred, at home, and one daughter in the United States.

Friends and neighbors extend their sincere sympathy to the bereaved ones.

VERY LATEST

Designed in Sizes: 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56 required \$50 yards of 36 inch material.

Comfortable House Frock

Pattern 8289. A new and becoming house-frock ever so often is an absolute necessity to those of us whose work is in the home. The wearer will quickly find it a pleasure to obtain the right kind of dress for her needs. So this design is made with the larger woman in mind, from its notched collar and vestee to its flattering side panels, and lack of bust.

The sleeves are interesting on ac-

count of the sashed openings and it is fitted in at the back by means of darts.

The making of this frock can be accomplished in a few hours.

Friated percale, chambrey or batiste

would be the most effective.

LOCAL NOTES

Mrs. M. A. Harcus and children left last week for Hythe, Peace River district, where they will visit for a couple of months with Mr. and Mrs. Geo. Hawthorne, parents of Mrs. Haynes. Mr. and Mrs. Hawthorne have visited their daughter in Bassano for a few days. The party travelled north by car.

H. H. Shiu, H. H. Beeher and Wm. McLaws motored to Hissar Monday evening to attend the meeting of the Husar Lodge A.P. and A.M. They returned home Saturday morning.

Mr. Donaldson returned home on Sunday evening from Edmonton, where he competed in the provincial tennis tournament.

Miss Isabelle Flanagan, who has been visiting in Bassano with Miss Agnes McCarter for the last two weeks, plans to return home next Sunday.

Mr. and Mrs. G. Flood returned home Wednesday from their summer vacation.

Ted Gammon left Wednesday on a summer holiday. He is planning a trip to Vancouver.

The town public works department has been dragging the streets this week and filling ruts and potholes.

G. C. Wilson, of Edmonton, was a caller on Dr. A. G. Scott this week.

Mrs. Wm. Walters and two daughters, of Portage la Prairie, Manitoba, are guests of Mrs. D. Cathro.

Mr. and Mrs. L. N. Whitehorn were visitors to Cagary on Tuesday.

Leonard returned Tuesday night from Victoria, B.C., where he spent a week or two vacation.

Lorne Casway, of Calgary, is visiting friends in Bassano.

Mr. and Mrs. J. R. Donaldson left this morning on a holiday for Van couver.

Mrs. Geo. F. Meyer and Miss Evelyn Meyer, of Blakie, and Miss Josephine Constance, of Edmonton, are guests of the home of Mr. and Mrs. Hoy M. Easterbrook.

A son was born to Mr. and Mrs. Andrew Hood, Bassano, on Saturday Aug. 11, at the Bassano Hospital.

Mrs. N. Hassabah and two sons returned Wednesday morning from a trip to Chicago, where she was the state of Illinois. While in Chicago they visited the world's fair.

Mrs. Jas. Wright, who has been visiting in Bassano with her parents, Mr. and Mrs. T. N. Simpson, went to Calgary for a couple of days.

Mrs. Jas. Wright, who has been visiting in Bassano with her parents, Mr. and Mrs. T. N. Simpson, went to Calgary for a couple of days.

ROSEMARY NEWS

ROSEMARY, Aug. 16.—Mrs. A. Shore and sister, Mrs. Christensen, and daughters, of Salt Lake, Utah, are visiting here for a couple of weeks.

Mr. and Mrs. N. V. Taftfield and family returned home Thursday from a visit to Idaho.

Wilfred and Victor Starkey, of Val Marie, called on old friends here last week.

P. Dick and Helen motored to Bassano Tuesday.

Wm. Honey, of Bassano, is doing some road construction in this vicinity.

CARD OF THANKS

We wish to express our sincere thanks to our many friends for their kind words and sympathy in the loss of our dear mother, and also thank them for the beautiful floral tributes.
